MY FIRST FTP Test ** & RPE: 8/10** What do these things mean? **FTP** stands for **Functional Threshold Power** and is a figure that you gain from completing a test which is explained on the ‘Talking Points’ sheet of this programme. **RPE** stands for **Rate of Perceived Exertion** which is the effort you put out whilst doing exercise. This is measured on a scale from 1-10, 1 being ‘not hard at all’ 10 being ‘I am at my limit’. It is an easy way for you to measure your effort levels.
