

24 Peaks in 24 Hours challenge

Suggested Kit List

The items listed below are purely recommendations. The list has been designed by the local ground handler and past challenge leaders; however, please take into account your personal preferences and common sense. We are open to further recommendations upon your return. See what you can borrow, and if you need to purchase any items, remember that you can get a discount on equipment and clothing from various well known suppliers and outdoor shops – for more information, please refer to the document “Kit Discount” which you will find in your member’s area in the “Challenge Pack” section once you have booked and paid your deposit.

If you would prefer to hire kit, please contact Outdoor Hire, a company specialising in the hire of top quality outdoor gear. They are working with Charity Challenge to provide all the kit you need for your challenge and offer a 10% discount to Charity Challenge customers who have booked onto one of our challenges. Simply obtain the promotional code by referring to the document “Kit Discount” which you will find in your member’s area, and then go to <http://www.outdoorhire.co.uk/charity-challenge>, select the kit list for the challenge you have booked and follow the online instructions for how to hire the kit you need.

Try to use your equipment before you go – particularly your rucksack, boots and sleeping bag (if camping) – this will show up any manufacturing faults and whether they are comfortable enough. Good footwear and care of the feet is most important. Well broken-in walking boots should be worn on treks. Trainers are too flimsy for wilderness treks and trainer boots are not appropriate. Sandals leave the feet exposed to sunburn, abrasions, thorns, insect and animal bites.

Bring as little as possible but bring everything you need. Travelling light is much less of a hassle, so do not bring things you can do without. If you need to wear jewellery, keep it simple and inexpensive. The general rule is that if you don’t need it, don’t bring it. Always keep your night clothes in a watertight bag to ensure they stay dry if there is a sudden downpour or if you are crossing water – you will have a much better night’s sleep in dry clothing. Bring clothes that wash and dry easily (jeans, for example, take forever to dry and should not be worn on the trek).

Please note we strongly recommend you take the kit marked below. If you do not have suitable clothing for the conditions the leader has the right to send you back to the hostel.
