

CPR

Flash mob

09.30am
assembly
take-over

Get young people to hijack the PA system with the Bee Gees' Staying Alive and perform a quick round of CPR before calmly returning to their seats.

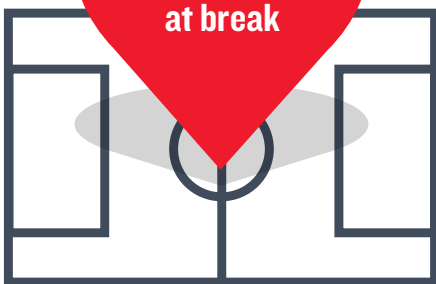

A cardiac arrest can happen to anyone at any time. But so can lifesaving CPR training. You've taken up Mission: CPR to create a school of life savers on 22 June, 2016. Kick-start interest amongst your pupils by staging flash mob CPRs around the school site.

- 1 Figure out a time and place for your flash mob CPR
- 2 Grab your CPR kit and some volunteers – maybe have some way to play music
- 3 Walk into a social space and start doing CPR

Keep it informal, keep it simple – make it fun!

If you can, film your CPR flash mobs and tweet us a link using #MissionCPR – we'd love to see them.

14.15pm
a pop-up concert
at break

Ask skilled singers to sing the Bee Gees track at break while staff demonstrate CPR.

12.30pm
dining-hall
flash mob

Brief some young people to expect a sudden burst of music on the PA system. As the music begins, they pull out pre-prepared mannequins for a short burst of CPR. Once they can have everyone's attention, give a short presentation on Mission: CPR.
