

Researchfish... *what we want to know*

This is a guide for all common outcome questions in Researchfish related to BHF awards. We are very grateful for your time and effort in updating Researchfish and have put together this BHF guide in addition to the universal guidance supplied by [ResearchFish](#). Please contact researchevaluation@bhf.org.uk for further information.

Publications

- **Any publications** that have arisen from work funded by your BHF award (research papers, reviews, editorials, conference proceedings (abstracts), books (or individual chapters) and policy briefing documents)
- **Exclude submitted-only articles**

Collaborations & Partnerships

- **All Collaborations** that have arisen or have been strengthened by research funded by your BHF award: **academia**, **industry** (private sector) or non-academic **healthcare professionals** (hospitals)

Further Funding

- Any **funding** secured as a result of research funded by your BHF award (from any funders, include partnerships)

Next Destination

- **Next destination** of individuals supported by the BHF award. We would especially like to monitor the next step of **students** and those in **junior roles**

Engagement Activities

- Any **public engagement** activities communicating or promoting BHF funded research (institutional open days, talks at schools, participation in fundraising events, science festivals, blogging or any contact with the media. Please record keynote speeches in *Awards & Recognition*)
- **Excludes academic conferences**

Influence on Policy, Practice, Patients & the Public

- Details of any **significant influence** on policy or practice that was realised as a result of BHF funded research
- Include influence on the **training of practitioners/researchers**, citation in **clinical guidelines/systematic reviews/other policy documents**, participation in a **consultation** or on an **advisory committee**, interaction with the **BHF policy team**

Research Tools & Methods

- Provide details on the creation, development or refinement of **research tools** or **methods** and specify whether they **have been made available** for other research groups
- **Include** cell lines, disease models, research assays or methods that you have created/refined
- **Exclude *in silico* resources** (Research *Databases and Models*) **and resources for clinical use** (*Medical Products, Interventions & Clinical Trials*)

Research Databases & Models

- Provide details of the **creation/refinement** of any ***in silico*** research databases and models
- **Include** data analysis techniques, computer model/algorithms, data handling techniques, development of databases
- **Exclude resources for clinical use** (*Medical Products, Interventions & Clinical Trials*)

Intellectual Property & Licensing

- **Intellectual property** that has resulted from research funded by your BHF award, protected by **patent** (under revision or granted), **copyright**, **trademark** or where applicable, **protection not required**
-

Medical Products, Interventions & Clinical Trials

- Include **medical products** and **interventions** developed as a result of research funded by the BHF; **clinical trials** of a **novel medical product/intervention** that you have developed; clinical trials/studies of a **drug repurposed** for a new indication
 - **Include** imaging tools, diagnostic tools, drugs, cellular/gene therapy and medical devices
 - Please ensure the outcome arose from research funded by the **BHF award**
-

Artistic & Creative Products

- Any **artistic** or **creative output** that is related to BHF funded research
 - Artefacts, images, artwork, composition/score, creative writing and film/video/animation
-

Software & Technical Products

- Please ignore this section unless your output does not fit within the remit of *Research Databases & Models* or *Medical Products, Interventions & Clinical Trials*
-

NEW! Additional question: Successful completion of PhD

- Please let us know when PhD students and CRTF fellows have passed their viva – unfortunately this information is not always available in Final reports
- **Only mandatory** for **all PhD Studentships** and **CRTF Fellowships** in the first submission period post end of award

Spin Outs

- The creation of any **spin out companies** or **ventures**
 - Please provide an **overview** of company structure, type and level of investment leveraged and key milestones of progression
 - **Exclude** private sector collaborations (*Collaborations & Partnerships*)
-

Awards & Recognition

- The receipt of a **prize, award, honour** or **other form of recognition** usually from peers or prestigious organisations
 - Include **keynote speeches**, **membership** or **fellowship** of a learned society, an appointment to an **honorary/advisory position** on an external body or editorial board
-

Other Outputs & Knowledge/Future Steps

- Please ignore this section unless your output does not fit within the remit of the other 15 questions
-

Use of Facilities & Resources

- The use of **national** or **international research resources**
- Include national **tissue/DNA banks**, **patient cohorts**, **national facilities** such as high throughput sequencing hubs or proteomics services
- **Exclude** university facilities used in daily laboratory activities

Thank you!
